

Services Rendered by The Indus Health Network

Every month the hospitals within The Indus Health Network are able to serve thousands of patients struggling to live a healthy life:

**Patients Treated
per month**

Over
145,000*

**Procedures Performed
per month**

Over
6,000*

**Patients Admitted
per month**

Over
9,200*

**Cost Incurred
per month**

£ 2.4 Million*

* Average taken from July to December 2016

Show You Care

The Indus Hospital is run entirely through Zakat and donations received from donors such as yourself. The operational cost incurred by the hospitals per annum sums up approximately to £ 28 million. It is with your help that The Indus Hospital has been able to treat millions of patients free of cost, therefore we urge you to support our cause and donate generously.

How to Donate

Every contribution you make goes towards treating some of the most deserving patients from all across Pakistan and enabling them to live a healthy life. Donations to The Indus Hospital can be made in the following ways:

QUALITY CARE - FREE OF COST

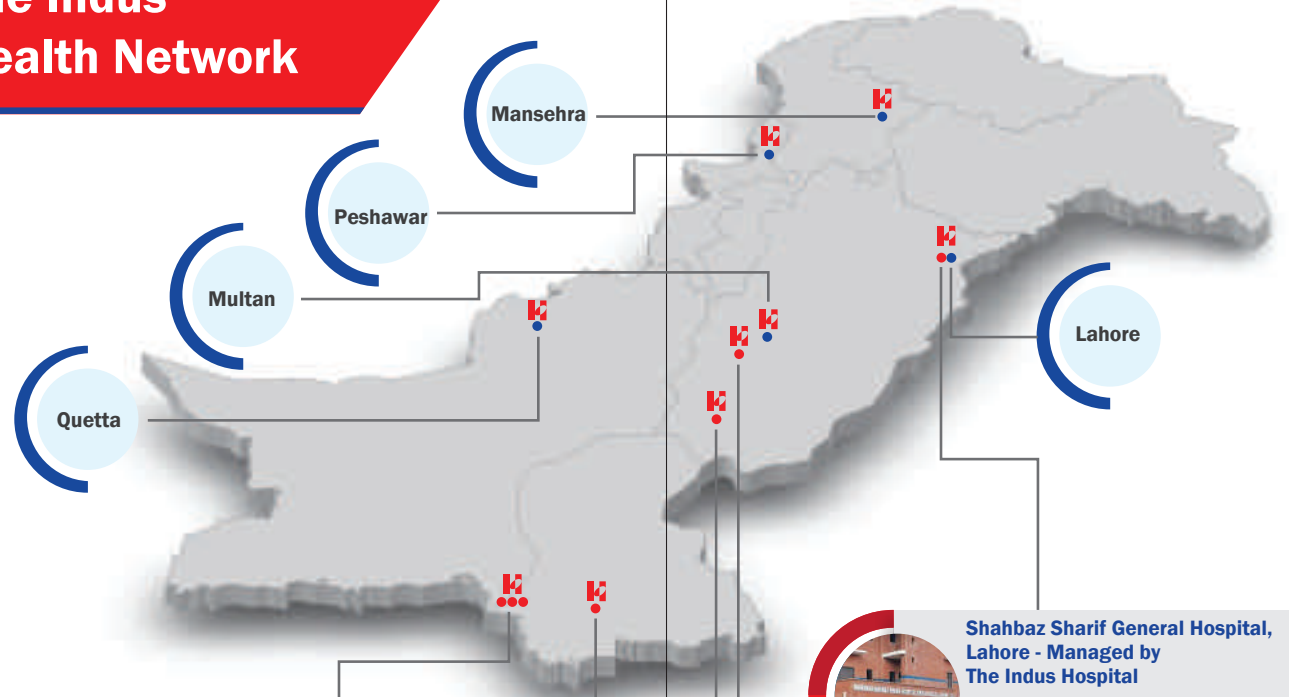

About The Indus Hospital

The Indus Hospital started in 2007 as a 150 bed tertiary care hospital. It serves to provide quality treatment free of cost to underserved patients. Some of the defining features of the hospital are listed below:

- All the services offered at the hospital are absolutely free of cost
- Tertiary care multidisciplinary hospital
- Houses some of the best physicians and surgeons in the country
- Rapidly expanding as a network of hospitals all over Pakistan to increase the accessibility of patients to free of cost quality healthcare
- All hospitals within The Indus Health Network run on a paperless system
- A comprehensive Shariah screening system is in place to ensure that zakat is utilized solely for the purpose of treating zakat eligible patients
- The Indus Hospital's main campus in Karachi now houses a newly launched Pediatrics Complex with a specialized Pediatric Oncology Unit, Pediatric Emergency, Medicine and Surgery Services.
